

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

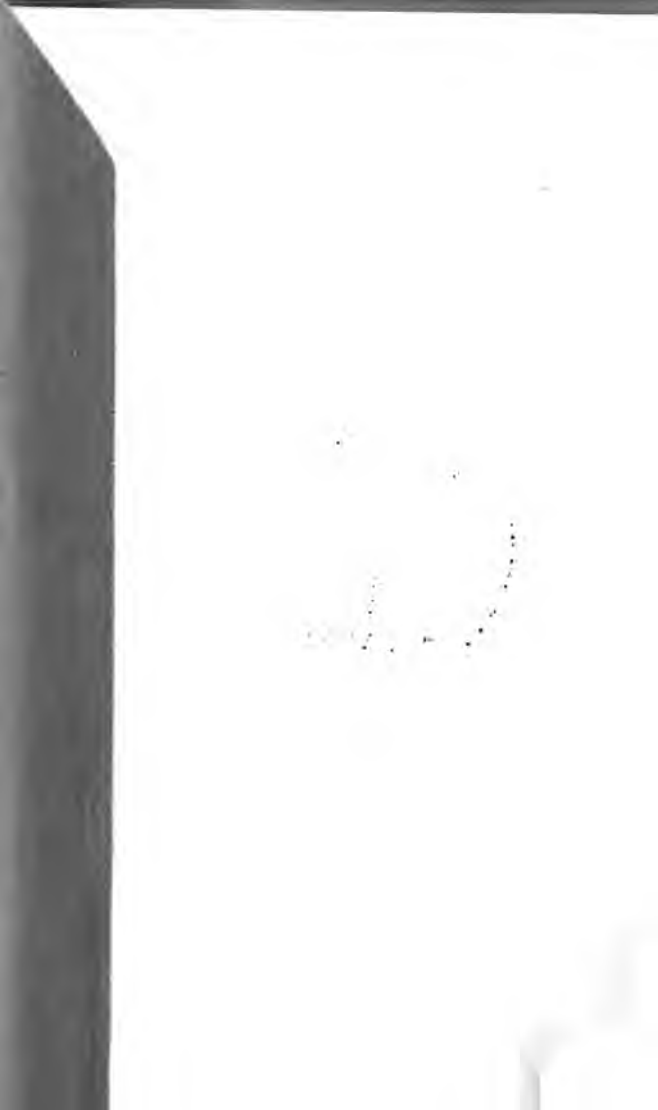

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

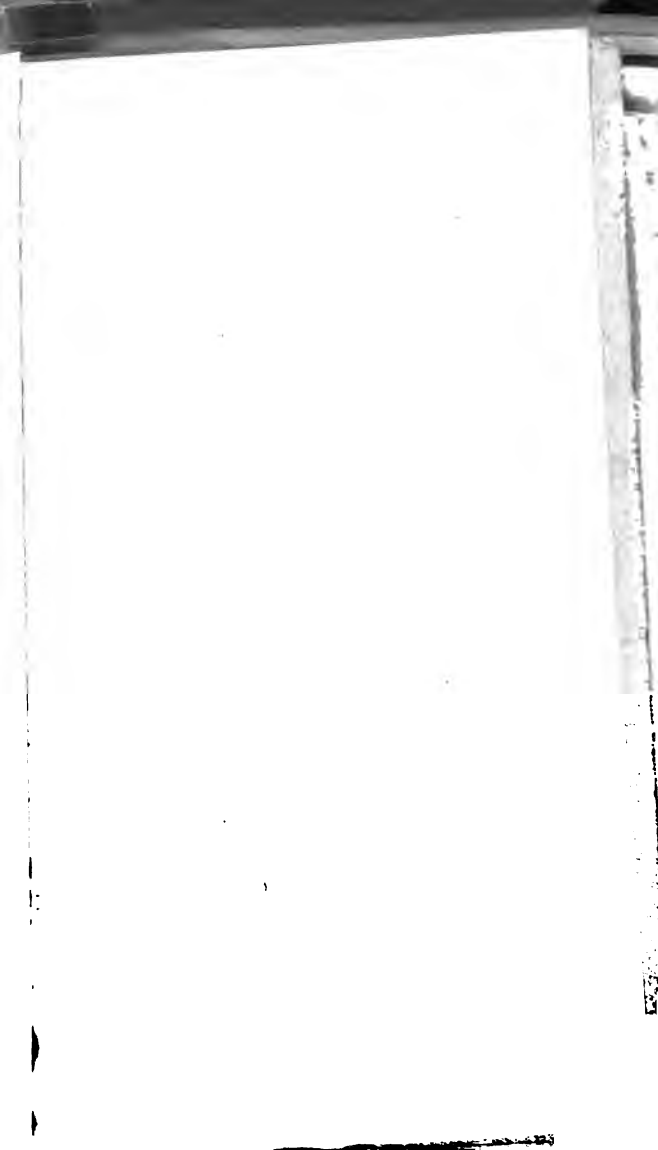

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

BUSINESS DIRECTORY OF TOWNS, Alphabetically Arranged.

PRELIMINARY INFORMATION.

1. The names of all the Towns and all the Post Offices in the State except those which have North, East, South, West or Center prefixed to the names of the towns of which they are a part, are here alphabetically arranged.

2. For villages above excepted, look under the name of the town. But East Kingston, North Hampton, South Hampton, South Newmarket, and Westmoreland are *towns*.

3. After the name of each town, you find the name of the *county* in which it is located, the population in 1880, the direction and distance from Concord and from the Shire town of the county, the way of reaching it by rail, the town officers and the professional and business men, arranged under different heads, as nearly alphabetically as is convenient, some regard being had to economy of space.

4. Merchants are supposed to keep a general assortment, and physicians to be "old school" unless otherwise specified.

5. All these items are referred every year, usually between Aug. 1, and Dec. 1, to the Town Clerks, Postmasters or other prominent men of the several towns and villages for correction.

6. We earnestly solicit corrections from all other persons who may notice things which they *know* to be errors.

7. Of course changes are made, in March, of Town Officers, and other changes are constantly occurring, so that one need not expect to find this Directory absolutely correct all the year round, but use it with this understanding and you will find it very valuable.

SUMMARY.

Republicans, 179. Democrats, 114.
 Total, 293. Majority, 147. Two thirds, 196.

THE GOVERNOR

of New Hampshire is chosen biennially since November 1878, according to Statute of June 1877, on the Tuesday next after the first Monday in November, by a majority vote. In case of no election by the people, the Legislature elects one of the two persons having the highest number of votes. The constitutional title of the Governor is *His Excellency*.

To be eligible to the office of Governor, one must be thirty years old, and an inhabitant of the State for seven years last preceding his inauguration. In case of the death, disability or resignation of the Governor, the office is filled by the President of the Senate.

The Executive Council consists of five Councillors, elected by districts, at the same time and in the same manner as the Governor.

The Governor and Council appoint all judicial officers—the attorney general, notaries, coroners, judges of probate and general and field officers of the militia.

CONGRESSIONAL DISTRICTS.

First District comprises the counties of Rockingham, Strafford, Belknap and Carroll. Rep., Joshua G. Hall, Dover.

Second District comprises the counties of Merrimack and Hillsborough. Rep., James F. Briggs, Manchester.

Third District comprises the counties of Cheshire, Sullivan, Grafton and Coos. Rep., Everts W. Farr, Littleton. Died Nov. 30, 1860, making another election necessary after we go to press.

COUNCILLOR DISTRICTS.

Councillor district number one is composed of and contains the county of Rockingham and the county of Strafford, except the towns of Middleton, New Durham and Strafford, in the county of Strafford, and the towns of Auburn, Candia, Chester, Deerfield, Derry, Londonderry, Northwood, Nottingham, Raymond, Salem, and Windham, in the county of Rockingham.

Councillor district number two is composed of and contains the towns of Alexandria, Auburn, Belmont, Bristol, Candia, Chester, Deerfield, Deering, Gilmanton, Gilford, Goffstown, New Hampton, Northwood, Nottingham, Raymond, Sanbornton, Tilton, Weare and the county of Merrimack, except the towns of Bradford and Newbury.

Councillor district number three is composed of and contains the towns of Amherst, Bedford, Brookline, Derry, Francetown, Greenville, Hollis, Hudson, Litchfield, Londonderry, Lyndeborough, Manchester, Mason, Merrimack, Milford, Mount Vernon, Nashua, New Boston, New Ipswich, Pelham, Peterborough, Salem, Sharon, Temple, Wilton and Windham.

Councillor district number four is composed of and contains the counties of Cheshire and Sullivan, and the towns of Antrim, Bennington, Bradford, Canaan, Enfield, Grafton, Greenfield, Hancock, Hanover, Hillsborough, Lebanon, Lyme, Newbury, and Windsor.

Councillor district number five is composed of and contains the counties of Carroll and Coos, and the towns of Alton, Barnstead, Center Harbor, Laconia, Meredith, Middleton, New Durham, Strafford, and the county of Grafton, except the towns of Alexandria, Bristol, Canaan, Enfield, Grafton, Hanover, Lebanon, and Lyme.

MILITARY DEPARTMENT.

The State militia now known as the New Hampshire National Guard, is organized as one brigade under the command of Brigadier General J. M. Clough, with head quarters at Concord. It is divided into three regiments of infantry of ten companies each: two troops of cavalry, and two four gun batteries of two platoons each. The first regiment, Col. J. J. Dillon commanding, is assigned to that section of the State south of Concord and east of the Merrimack river. The second, Col. D. M. White commanding, consists of 533 men and is assigned to the section south of Concord and west of the Merrimack. The third Col. J. N. Patterson commanding, consists of 518 men and is assigned to the section north of Concord. The three regiments number 1539 men, which with 6 unattached companies are consolidated in a single brigade. The unattached companies have an aggregate of 220 men—making, with field and staff officers, 1,779. The enrolled militia amounts to 33,859 men, distributed among the counties as follows; Rockingham, 4,949; Strafford, 3,837; Belknap, 2,082; Carroll, 2,217; Merrimack, 4,860; Hillsborough, 3,759; Cheshire, 3,637; Sullivan, 2,112; Grafton, 4,924; Coös, 1,482. Commander-in-Chief, His Excellency, The Governor. Augustus D. Ayling, Nashua, is Adjutant General, and John W. Sturtevant is Inspector General.

Insurance Companies.

At the close of the year 1879, according to the Annual Report of the Insurance Commissioner presented to the Governor in June, 1880, there were in the State sixteen Town Mutual Insurance Companies. They then carried risks to the amount of \$2,207,693. The losses and expenses of the preceding year had been \$4,156.78. At the above date there were five State Mutual Fire Insurance Companies. They carried risks to the amount of about nine millions. The New Hampshire Fire Insurance Company Manchester, had a paid up capital of \$250,000. At the close of 1879, it carried risks to the amount of \$20,813,629. There were at the above date, sixty-seven Foreign Fire and Fire and Marine Companies licensed according to law to do business in the State. These companies carried risks to the amount of \$49,561,376. The premiums received amounted to 410,944, and the losses of the year to \$14,945.16. Twenty-one Life and Life and Accident Insurance Companies had, at the close of 1879, issued to parties in the State 7,041 policies, insuring \$10,241,872. Premiums received in 1879, in cash, amounted to \$254,368.40, and the losses, annuities and endowments paid, to \$288,658.27. The amount of tax paid by these several companies to the State, according to law, is one per cent. of the whole amount of premiums received.

THE BOSTON DAILY ADVERTISER.

1813-1881.

The DAILY ADVERTISER will be published as a *quarto* on and after the 1st of January, 1881. This is necessitated by the increased requirements of our business. A sudden rush of news or of advertising, or even the usual increase of advertising in the business seasons, compels an increase of space beyond what is afforded in our forty long columns. In its new form the paper will come from the press all folded. The edges will be cut and the backs pasted, and it will be found most convenient to handle.

We believe that the "make-up" of the paper will commend itself to the general public, and that business men will be especially pleased with it.

All the general features of the paper will remain the same, except that while we shall strive to make the DAILY ADVERTISER as trustworthy as ever, we shall also strive to make it "newsy" and entertaining, without being sensational in an obnoxious way.

The COMMERCIAL, FINANCIAL and BUSINESS DEPARTMENTS will be kept up to their former standard, and we believe they are unequalled in trustworthiness.

The EDITORIAL DEPARTMENT, on the fourth and fifth pages, will be, we trust, more attractive than ever. We endeavor to treat all questions from the standpoint of public interest exclusively, and to give to all discussion the flavor of honesty and candor. It is certain that the questions growing out of the war are far from being settled. It may be they are all to be fought over again, and it is certain that the present is a time for vigilance, as well as for energetic and yet calm discussion. We commend the LITERARY DEPARTMENT with confidence to our readers.

The CORRESPONDENCE of the Daily Advertiser, both at home and abroad, will continue to be a valuable feature. Prominent points are represented, and on all important occasions we retain the services of special writers.

All departments of the paper will be maintained at the highest standard, and whatever will tend to improve the paper will be availed of at once.

THE WEEKLY ADVERTISER, published on Thursdays, at \$2 per annum, is edited with reference to the wants of more distant readers. And it is our purpose to have an AGRICULTURAL DEPARTMENT which shall have a highly scientific as well as practical value.

Terms of the Daily \$12 per annum.

COOLEY CREAMER.

The acknowledged "Standard" cream raising apparatus of this country and the world. Manufactured in *four styles* and *ten sizes* to meet the wants of all.

THE REGULAR, the cans of which are removed to a bench and the milk drawn automatically from beneath the cream; **THE JUNKIE**, in which the "skimming" is done automatically without removing the cans from the creamer; **THE UPRIGHT**, or cabinet, having a compartment under the water tank. The skimming is also done without removing cans; **THE ELEVATOR**, provided with an attachment for raising the cans out of tank. Skims automatically. Each of these styles has a transparent pane to determine when milk is out and cream about to flow. Our patents cover this process, and all are cautioned against using or buying any imitations and infringements. The Creamer and its products have been awarded more Gold and Silver Medals than all other apparatus combined.

DAVIS SWINC CHURN

Awarded First Premium over all competitors at International Dairy Fair at New York. The box contains: no floats nor inside gear which mash the butter globules; no corners in which the cream can lodge, to be washed into the buttermilk and lost when the butter separates. The butter gathers in beautiful granules in the best possible condition for washing in the churn with cold water and brine. Works easier than other

churns. This churn needs only to be seen to be appreciated.

IMPROVED EVAPORATOR.

Makes Better Sugar than any apparatus in use, with one-half the fuel and labor.

No Sugar Maker should be without them. They evaporate so rapidly that they will make whiter and nicer sugar than others from the same sap.

The Patent Cone Washer.

FOR WASHING PAPER STOCK.

In successful operation for four years.

J. T. Emerson, Claremont, N. H.

Sole Manufacturer.

It will wash faster than any other ever put before the public. Any stock washed in three hours' time.

It requires but one in an engine for washing rags, and washes faster than any other washer; giving better results.

The water is discharged in a solid, unbroken stream, into a cast iron spout made in connection with the boxes for pinion shaft, and drip for pinion gear, all of which are bolted to the side of the engine, making a very neat and compact arrangement. It can be adjusted to the amount of water at the hydrant.

One will wash papers as fast as two common washers.

It has NO VALVES TO GET OUT OF ORDER, is made complete, in the most substantial manner, as shown in the cut, and warranted to do all that is claimed for it.

The following testimonial is, in substance, what is said by all who are using them.

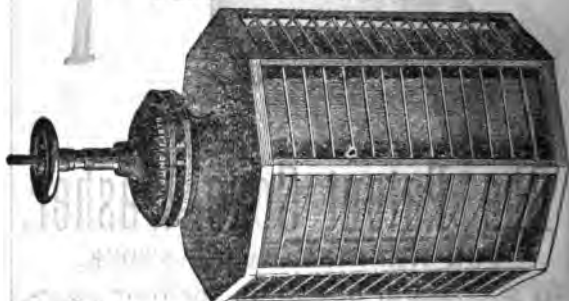

Dear Sir—We have two of your Patent Cone Washers in use at our Mill and desire to say that they are more than you represented; in other words, better, and just the thing for quick work; washing the stock sooner than than any other machine we have yet seen or heard of.—*Pioneer Paper M'f'g Co., Atlanta, Ga.*

TYLER'S

Copper Cylinder Water Regulator

Rag Engine Washer

Patented June 17, 1879.

No Paper Mill can afford to do without this Washer, as it greatly increases the production over any other in use.

It is so constructed that the height of water in the engine can be regulated by the Washer itself.

Engineer can regulate at will the water in the engine to keep at any desired height, by the use of the Patent Regulator. This is very important, in order that the engine may turn rapidly and easily. On this point, this Washer is superior to all others.

It runs easier and washes faster than any other.

It has copper buckets and iron heads—no wood about it except core and sash, the sash being fastened to the head with brass screws, making it very strong and durable, and not liable to get out of order.

Everything furnished complete—water-box, hood, racks and pinions for hoisting it out of the engine, ready to set up, except the wire.

In ordering, give distance between mid-fellow and the side of the tub, and say which way the engine runs.

REFERENCES.—Among those using these Washers, reference may be had to the Winnipiseogee Paper Co., Franklin, N. H.; Fall Mountain Paper Co., Bellows Falls, Vt.; Bridge Paper Co., Pawtucket, R. I. These parties have used all of the best Washers heretofore introduced, but now use Tyler's.

TYLER WATER WHEELS.

Latest improved Turbine
Flume Wheel.

Tyler's Latest Improved
Scroll Turbine Wheel.

They are the most simple in construction, the best made, most durable, and steadiest running of any Water Wheel in the market. They run just as well in back-water, with the same working head, as out. They are not obstructed by anchor-ice or other substances, like most other wheels.

The 30-inch Flume Wheel, by a fair and scientific test, gave 91.27 per. cent of power for the water used—the largest, per cent of any wheel ever made. A 5-foot wheel, tested by Samuel Webber, Esq., Engineer, of Manchester, N. H., in the Holyoke Testing Flume, in 1879, gave, 80 per cent; with half water discharge it gave 63 per cent., which is the best per cent. of any wheel of the same size ever tested in this flume.

A 24 inch wheel tested by Holyoke Water Power Co., Oct. 8 1880 gave as follows: at full gate 82.12 per cent, at $\frac{3}{4}$ gate 84.50, at $\frac{1}{2}$ gate, 85.32 and at $\frac{1}{4}$ gate 78.71.

Test.	$\frac{1}{2}$ to $\frac{3}{4}$ gate.	$\frac{3}{4}$ to full gate.	$\frac{1}{4}$ to full.
	82.01 per cent.	83.72 per cent.	80.41 per cent.

Thus 'tis proven to be the best scroll wheel ever built.

The Patentee is the only manufacturer of his New Turbine Scroll and Flume Wheels.

He will furnish to order all kinds of mill irons, machinery and Regulators, for his own and other water wheels.

Dodge's SOAP STONE STOVE.

I now offer to the trade new patterns of stoves for both wood and coal. There is no method of heating apartments which produces so healthy an atmosphere as by the use of Soap Stone Stoves.

Dodge's Patent Soap Stone Stoves have proved a great benefit to the health of those who have used them, and I now offer them to the public, not only as a matter of health and economy, but of taste and ornament. Many friends have importuned me to produce a Soap Stone Stove for burning coal, which I have now done with perfect success.

Parties where I have no local agents will please correspond with me for price list and full description.

If any piece should be broken on cars in transportation, I will replace free of charge except cost of carrying.

**Address Hyren Henry,
PERKINSVILLE, VT.**

Read what is said by Judge Barrett and Ex. Gov. Proctor, of Vt.

WOODSTOCK, VT., Sept. 10, 1880.

H. Henry, Esq.

We have used in our parlor the last three years *Your Soap Stone Parlor Stove*. It is regarded by all my family as excellent. The fire is easily started in it, and easily kept without going out. When a slight and temporary warming is wanted we can use wood as in a common wood stove, using a little coal if we choose to. We know of no stove that would serve or suit us better. I have just read the above to Mrs. Barrett and she says, it is right.

Resp'y yours,

JAMES BARRETT.

SUTHERLAND FALLS, Sept. 13th, 1880.

MY DEAR MR. HENRY:—I am glad to say a good word for your coal stove. I have had one in my office for two years, and like it much. Have also used your Wood Stove for many years, and always with satisfaction.
